The limit of your coverage is the actual cash value of your auto or its damaged parts at the time of loss. Fair market value, age and condition of your damaged vehicle will be considered when determining the actual cash value of a loss. Certain parts lose value or depreciate because of age, condition, and/or wear and tear. Betterment is the increase in value of a vehicle or any of its parts as a result of replacing certain parts damaged in a loss. If the replacement of certain parts results in an increase in value to your vehicle or any of its parts, a deduction for betterment may be made to your loss payment to reflect the actual cash value you are owed under your policy.
